Only Exchanges by large throws
(no Boomerang) of the apparatus
between the gymnasts are valid as
ED

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

Large throws are determined by the
required height or a distance of 6 m
between the gymnasts

Distance min 6 m during the throw and/or the catch

Criteria : on the floor

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

Throw and/or catch on the floor :

Gymnasts must already be on the floor
and not moving towards the floor

Criteria « FLOOR » not valid

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

If an ED is caught on the floor and another ED begins immediately, the gymnasts must change the position on the floor to receive the criteria on the floor for the throw.

Criteria « FLOOR » valid for both exchanges

Criteria: rotation

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

For Exchange Difficulties:
the criteria rotation must be 360°

Rotation not complete – criteria not valid

Criteria: rotation

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

For Exchange Difficulties : the criteria rotation must be **DURING** the throw / under the flight / **DURING** the catch

Rotation after the catch – criteria not valid

D3/D4

Collaborations

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

Identifying VS. **Validating:**

**All points are in the Code of Points
and Newsletters **have to be applied**
consistently to all Groups in the
same manner in all competitions**

CC

Minimum 2 transmissions during the Collaboration with a minimum of 2 types of passing (listed below) by one or more apparatus:

- throw: small or medium
- rolls
- bounces
- sliding
- rebound
- etc.

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

CC

Value: 0.1

WITH a LARGE
THROW the CC
is NOT VALID

Preparation for
CR/CRR/CRRR is
not meant for CC

Q: Is it possible to perform the „main“ rotation of CR, CRR during the catch?

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

NO, CoP says:

Throw of own apparatus by one/two or several gymnasts and **immediate catch** of own or a partner apparatus **after:**

A rotation **under the flight of the apparatus** with loss of visual control of the apparatus

Collaboration not valid

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

Note: There can be a rotation on the catch, if there was another one under the flight/during the throw.

Throw during rotation is possible!

Collaboration valid

Examples

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

CR/CRR			valid
---------------	--	--	--------------

CR/CRR			valid
---------------	--	--	--------------

CR/CRR			not valid
---------------	--	--	------------------

CR/CRR	 	or		valid
---------------	------	----	--	--------------

NL 10,11 & 13

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

10. Please clarify if CR and CRR can be with “medium or large throw” as is specified for CRRR in #6.4.

Yes, these Collaborations follow the same principle as Individual R (**cannot be small throw**).

11. Further to the above, if a CR or CRR has a small throw, is this valid?

NO

Collaboration with small throw (main action) is not valid

Collaboration with small throw (main action) is not valid

13. What is the required height for throws in the types of collaborations: CC, CR, CRR ?

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

The height requirements for small, medium and large throws are defined at #3.4. The height is evaluated from the point of departure of the apparatus.

a) See #6.3 a.

- CC: small or medium
-  C: medium or large

b) See #6.4: this group of collaborations follow the same requirement for throws as indicated for CRRR which is medium or large:

- CR, CRR: medium or large

Heights of the Throws

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

- Gymnast height = **floor to head/
(in flight:) lowest to highest point**
- Flight height = **from the position where the
apparatus is released**

Large throw:

Two or more gymnast heights

Medium throw:

One to two gymnast heights

Small throw:

Near the body

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

How to define the height of a throw?

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

1. Find the point where the apparatus is released:

How to define the height of a throw?

1. Find the **point where the apparatus is released**:
2. Find the **height of the gymnast** in the throwing position:
 - From the **floor to the top of the body**

How to define the height of a medium throw?

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

How to define the height of a medium throw?

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

CR, CRR, CRRR

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

Use of criteria

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

Additional Criteria for c^{\nearrow} , c^{\searrow} , CR, CRR, CRRR:

\neq without help of the hand(s): +0.10

\otimes outside the visual field: +0.10

Use of criteria

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

For CR, CRR, CRRR: when executed by a **minimum 1 gymnast performing the main action** of body rotation with loss of visual control, valid one time per Collaboration with dynamic element of body rotation: **on the throw and/or the catch**. The value of the **criteria is given once for the throw and/or for the catch regardless of the number of gymnasts.**

Use of criteria

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

During CRR2, when one gymnast who performs main action throws without hands and outside visual field

throw

CRR2

= 0.6

Use of criteria

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

During CRR2, when one gymnast who performs main action, throws without hands and another gymnast (who also performs main action throws outside visual field

throw

$$\text{CRR2} = 0.6$$

Use of criteria

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

When the gymnast who performs main action of CRR also throws 2 apparatus (both actions with criteria)

$$\begin{array}{c} \text{⌘} \text{⊗} \\ \text{throw} \end{array} \text{C} \nearrow \text{+ CRR} \begin{array}{c} \text{⌘} \text{⊗} \\ \text{catch} \end{array} = 0.9$$

Use of criteria

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

When 1 gymnast throws 2 apparatus with criteria, and another gymnast performs the main action of CRR with criteria on the throw and on the catch

Throw of
2

Throw

catch

= 1.1

FIG.

Throw under the leg of two or more apparatus at the same time in different directions during a jump or element of rotation: is this valid for outside the visual field?

YES

**Check height
of the
throws!!**

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

**Note: The rotation for a
collaboration must be min. 360°**

Collaboration not valid

Rebound

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

A rebound can be the throw and/or the catch of a collaboration.

If it is the throw, it must have sufficient height.

Rebound as throw Collaboration valid

If it is the catch, height of rebound doesn't matter.

A rebound must be caught to validate the Collaboration

Rebound as catch Collaboration valid

Q: Steps with CC

A gymnast does a bounce to a partner and receives a roll on the floor. Does the girl take part sufficiently in the performance of the fundamental app. Technique (bounce) to validate the steps?

A: EACH GYMNAST MUST PERFORM A FUNDAMENTAL: THE ACTION OF BOUNCING THE BALL IS VALID AS A FUNDAMENTAL; AS LONG AS ALL 5 GYMNASTS PERFORM A FUNDAMENTAL FOR THE STEPS TO BE VALID.

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

Q: Please clarify catch with direct roll. Is it for the criteria „without hands“?

A: NO

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

Q: After the publication of the NL23 (D3 Individuals), do we apply the same principle in an exchange? In other words, a throw/catch with illusion, is it 0.1 (rotation) or 0.2 (rotation and BD)?

A: INDIVIDUAL AD IS DIFFERENT THAN EXCHANGE, 2.2.6.3

Criteria rotation and BD valid

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

Q: One of two „main“ gymnasts repeat identical rotation from a previous Collaboration. Is it possible to give value of CRR in this case (instead of CRR2)? Or entire Collaboration (CRR2) not valid?

A: CRR

NOTE

**WE ARE
GYMNASTICS!**
GYMNASTICS.SPORT

6. the **same rotational element**
(pre-acrobatic, illusion, chaîné etc.) may be used
one time **one time**

and

in **ED**

in **R**

OR

in **C**

A Difficulty with a repetition is **not valid (no penalty)**

Q: Are the following rotations consider to be different or identical:

a) front walkover over another's gymnast's back vs. front walkover over another's gymnast's arm

=> **ONE TIME ON THE FLOOR AND ONE TIME OVER THE BODY (WITH SUPPORT; REGARDLESS OF THE PART OF THE BODY**

b) log roll with straight body vs. with arch and movement of legs => **SAME**

c) forward roll over head vs. over shoulder
=> **SAME**
